

Strictly Sail Chicago 2010
Special Show Pricing
(Special pricing available thru April 30, 2010)**

**RADIANCE
(SOLAR ONLY KITS)**

The following “kits” have been developed to provide you, the boat owner, with different levels or “starting points” to begin the integration of solar-based renewable energy solutions into your vessel. Additional items are *required* to complete the installation, but the Eclipse Technologies Team will work with you to determine those items during our consultation, as the exact quantity of these items are specific to the size and configuration of your specific vessel.

Radiance Power-Up ~~\$849~~ \$799

Includes: solar panel, mounting clamps, combiner box, breaker and charge controller *

Radiance Elite ~~\$2,599~~ \$2,369

Includes: 2 solar panels, mounting clamps, combiner box, breakers, charge controller, battery meter and battery temperature sensor *

Radiance Extreme ~~\$3,599~~ \$3,399

Includes: 4 solar panels, mounting clamps, combiner box, breakers, charge controller with remote display and battery temperature sensor, battery meter and battery temperature sensor and management software for Windows® *

**BREEZE
(WIND ONLY KITS)**

The following “kits” have been developed to provide you, the boat owner, with different levels or “starting points” to begin the integration of wind-based renewable energy solutions into your vessel. Additional items are *required* to complete the installation, but the Eclipse Technologies Team will work with you to determine those items during our consultation, as the exact quantity of these items are specific to the size and configuration of your specific vessel.

Single Turbine

Breeze Power-Up ~~\$1,899~~ \$1,829

Includes: Wind generator, 9' mast with stabilizer arms and a battery meter *

Breeze Elite ~~\$2,299~~ \$2,199

Includes: Wind generator, 9' mast with stabilizer arms and battery meter with temperature sensor and management software for Windows® *

Dual Turbine

Breeze² Power-Up ~~\$3,299~~ \$3,199

Includes: two Wind generators, two 9' masts with stabilizer arms and a battery meter *

Breeze² Elite ~~\$3,599~~ \$3,499

Includes: two wind generators, two 9' masts with stabilizer arms and a battery meter with temperature sensor and management software for Windows® *

**SYNERGY
(WIND and SOLAR HYBRID KITS)**

The following “kits” have been developed to provide you, the boat owner, with different levels or “starting points” to begin the integration of a hybrid renewable energy solution, solar and wind, into your vessel. Additional items are *required* to complete the installation, but the Eclipse Technologies Team will work with you to determine those items during our consultation, as the exact quantity of these items are specific to the size and configuration of your specific vessel.

Synergy Power-Up ~~\$2,499~~ \$2,349

Includes: wind generator, 9' mast with stabilizer arms, solar panel, combiner box, breaker, and charge controller *

Synergy Elite ~~\$3,999~~ \$3,829

Includes: wind generator, 9' mast with stabilizer arms, two solar panels, combiner box, breakers, charge controller and battery meter with temperature sensor *

Synergy Extreme ~~\$4,999~~ \$4,799

Includes: wind generator, 9' mast with stabilizer arms, four solar panels, combiner box, breakers, charge controller with remote display and battery temperature sensor, battery meter and battery temperature sensor and management software for Windows® *

Synergy² ~~\$6,499~~ \$6,259

Includes: two wind generators, 9' masts with stabilizer arms, four solar panels, combiner box, breakers, charge controller with remote display and battery temperature sensor, battery meter and battery temperature sensor and management software for Windows® *

*Additional items required: such as custom bimini rail or other mounting hardware, wire, connectors

** Pricing subject to change without notice
